

Ed2go Instructor Led Courses begin once per month and run for *six weeks*. The type of course is instructor supported through a discussion area. The course allows for Peer-to-Peer and Peer-to-Instructor discussions. The course content is gated such that lessons are released twice per week (Wednesday and Friday) over the course duration. There is an automatic 10-day extension to allow students enough time to complete.

- **No Scheduled Class Times:** Lessons are released on a schedule (typically Wednesdays and Fridays), but you can access them **anytime** after they're released within the access period.
- **Self-Paced Within Structure:** While the course follows a 6-week structure, you can study **at your own pace** as long as you complete the work within the access period (6 weeks plus a 10-day grace period).
- **Group Discussions Are Optional:** Courses include **discussion areas**, but participation is **not mandatory** in real-time. You can post questions and interact with the instructor and classmates **on your own schedule**.
