

TEDxOcala Salon: Fresh Ideas Worth Sharing CUR112

TED is a nonprofit devoted to spreading ideas in the form of short powerful talks. TED began in 1984 and today covers almost all topics, from science to business to global issues. TED spreads ideas in communities around the world in more than 100 languages. We invite you to join our very active TED group here at Master the Possibilities.

We are a community of curious souls engaging with ideas and each other. We meet each Friday from 9 AM to 10:30AM. We have a presenter each week who picks two topics of interest. They can be serious, or not. The subjects are limited only by the imagination of the presenter. We show a video on each topic and then have a group discussion. We are not a debating society. Each member may speak in turn on each topic for up to two minutes. There is no cross talk and we are respectful of each person's time and their opinion. All members must have the opportunity to speak prior to anyone having a second turn.

All members if they wish are afforded the opportunity to be presenters. However, that is each person's option. As there are literally thousands of TED talks on almost every conceivable topic each presenter has an almost limitless variety to choose from depending on their field of interest. As there has been such a great interest in TED here at MTP we have a limit of 35 people per session.

We would like you to consider being part of this very active group. If you have any further questions you can feel free to contact any of the MTP staff or if you have questions about the program, I would be happy to communicate with you. My e-mail is bartoshjoe5@gmail.com. We hope you will consider the opportunity to be part of this enriching but fun experience.
