

Travel Talks

Instructor: Dianna Miller, CTA, MCC

At 19, I joined the Navy to see the world and didn't get to see much. I've had a few jobs since then but ended my career as a social studies teacher. When I retired, I became a travel advisor so I could share my passion for travel with friends and family. I love helping people create memories that will last a life time and fill my days planning my own next adventure!

In each of these courses, we will be covering travel tips and tricks, looking at different types of trips available, and exploring how to save money on your dream vacation.
